Sail Canada Intermediate Cruising

This 4-night live-aboard course is for those who have taken Basic Keel Boat Cruising. Upon completion, the candidate should be able to cruise safely in familiar waters as both skipper and crew of a sailing yacht of 30'-40', sloop rigged with an inboard engine, in moderate wind and sea conditions by day. The standard emphasizes on-water skills at a level acceptable for bare boat chartering for extended cruises in coastal waters. (Includes over 42hrs of online learning) *Requires Navigation Course prior to award

Max 4 students \$1499 dbl occ
 \$1799 single occ

**AND
 ON DEMAND**

**ICC – International Certification of Competency
 SLC – NauticEd.org Sailing License and Credentials**

This is a required certificate for chartering in Europe! (Croatia & Mediterranean). Yacht charter companies recognize the ICC & SLC and will grant holders the ability to charter their yachts, provided a sailing resume is also attached. This self-study course is based upon the program of the ICC requirements. Upon completion of the self-study program, there is a 6hr combined written and afloat test. **This course is not meant for the novice boater.** The candidate must hold the Sail Canada Intermediate Cruising Standard or NauticEd Bareboat Skipper & 50 days experience plus the Sail Canada Coastal Navigation Standard or equiv. and VHF-DSC Radio License or equiv. in experience for certification. If you require more than just a refresher, a more comprehensive online learning program is available for an additional (US)\$350. Practical Training also available separately.

Ports Toronto – Power Vessel Operators Permit (Harbour License)

The operation of any motorized recreational watercraft in the Toronto Harbour requires the operator to hold a valid Harbour License. This is comprised of both a written (multiple choice) and practical test. \$149

VHF Radio Course All operators of maritime VHF radios must hold, as a minimum requirement, a Maritime VHF Radio Operator Certificate. This course explains all protocols that must be followed when communicating over the maritime radio network. This is a self-study course, preparing you for a written and oral exam. \$149
